

Portland, Oregon, Oct. 28, 1902.

To the Honorable Mayor and Common Council,
of the City of Portland, Oregon.

Gentlemen:-

By direction of the Board of Public Works at its meeting held on October 21st, 1902, I beg to inform you that the Bridge across the Montgomery Slough has been closed and is now in a dangerous condition. Said bridge forms the only outlet to Lower Albina and while being closed shuts off entirely that portion of the City. The Board of Public Works realizes the importance of immediate repairs being made to the same and would recommend to your Honorable Body that authority for the same be granted provided an adequate appropriation can be made therefor.

Respectfully,

Clerk.
